FRED BURYA WINS CITATION

Mrs. M. Burya of this city received a wire last Thursday from her son Fred, stating that he had landed at New York from France. He left here with Company I and afterwards was transferred to Company D, 8th machine gun battalion. He was cited for the Marne battle, the citation reading: "Near Laron farm on July 15, 1918 under a heavy barrage, Corp. Burya, then a private, left his machine gun emplacement and, realizing that he faced almost sure death, crossed the ground churned by high explosives to visit a wounded comrade. He then returned to the machine gun emplacement, constructed a litter out of poles and a blanket, returned to the wounded man and, with the help of other soldiers, carried him to safety." Woodburn Independent.

INVENTS NEW CRUTCH

Sydney, Sept. 6.—A new crutch for the use of those injured in the war designed to prevent crutch paralysis, has been invented by two Sydney mechanics. The new device, it is expected, will be adopted by the military authorities.

COUNTY VARMINT FUND TAPPED TWICE IN DAY

Silverton Man Claims Reward On Coyote And Bobcat This Week.

The whole skin of one bobcat, including head and claws, and the entire skin of one coyote, also including head and claws were laid on the counter of the county clerk's office yesterday by J. H. Maulding of Silverton. He claimed under the bounty act, which was changed by the last legislature, \$4.00 for the coyote and \$2.00 for the bobcat and this amount was paid, to be charged up to the bounty fund.

In its wisdom in changing the bounty laws for the skins of wild animals, the last legislature reduced the bounty on coyotes to \$4.00 if it happens to be a female, instead of \$5.00 as formerly and \$3.00 for the skin of male coyote. As Mr. Maulding wished to keep the skins of the bobcat and coyote, instead of cutting off the claws as evidence, the ears of each were perforated.

During the past ten years the bounty laws for the skins of wild animals have been changed from time to time and as the law now stands, a coyote-pup skin is worth \$3.00, female coyote \$4.00 and male coyote, \$3.00, bobcats of wild cats \$2.00 mountain lions \$10.00, cougar skins \$10.00 each, and wolf skins only \$2.50 each.

During this year, six coyote skins have been presented to the county clerk and nine bobcats. January 22, Miles Adamson of Gervais brought in one coyote. On February 17, Henry Peters of Sublimity claimed the bounty on one coyote. F. B. Lamb of Scotts Mills was paid on March 10, \$8.00 for the skins of four bobcats.

Carl Shepherd of Scotts Mills received \$4.00 for two bobcat skins March 13, and on March 27, Anton Lee brought in the skins of four bobcats and one coyote. Miles Adamson was paid \$5.00 for the bounty on one female coyote on March 28, as the new law did not go into effect until May 29. July 16, J. E. Kinsey received the \$2.00 bounty of a bobcat and J. H. Maulding on the same date received the bounty on a coyote and bobcat.

During the past ten years, the \$10.00 bounty on a mountain lion killed in Marion county has been claimed but once and that was by H. M. Reece in 1909. The skin of but one gray wolf has been brought in for bounty during the ten years past. That was on August 25, 1909, by E. A. Taylor.

Lynx skins on which there is only a \$2.00 bounty have been presented for bounty only three times during the past

Drive in and See

There's only one way to find out just what Willard Service means to you in terms of longer battery life—

There's only one way to put Willard promptness, efficiency and competence to the test—

There's only one way for you to realize on the service that we offer to you as a user of a Willard Battery—

That one way is to *drive in and see.*

We are now located in our new home
238 NORTH HIGH STREET

We have designed this building that we may give the best of service and have installed the most modern devices for testing and repairing batteries; also generators and self starters.

SAVE MAIL ORDER POSTAGE—BUYING AT HOME
You See What You Buy Before Paying—Buying At Home

ten years, J. M. Titze claimed the \$2.00 bounty January 31, 1911. On June 24, 1915, the \$2.00 for a lynx skin was paid to J. M. Endzulis and on February 9, 1916 to C. C. Jones.

A black wolf skin was brought to the county clerk's office on November 20, 1909, by E. A. Taylor, claiming the \$5.00 bounty which was paid. On March 3, 1910, two black wolves skins were brought to the office by A. A. Richards and he was paid \$5.00 each.

A cougar skin is worth \$10.00 if proof is made that the animal was killed in this county. In 1910 bounties were paid on five cougars. In 1911 but three cougar skins were presented and in 1912 but one skin. The year 1913 saw but one cougar bounty paid in this county. But in 1914 bounty was paid on three cougars and on February 13, 1915, the \$10.00 bounty was paid to F. White. This was the last cougar skin on which bounty was paid.

To secure the bounty on wild animals affidavit must be made that the animal had been killed within six months from date of presentation of skin, that it was killed in Marion county, that the animal from which the skin was taken was not brought or received dead or alive from any other county or state and that the said animal or animals were not fostered in captivity prior to killing.

WOODBURN WINS

The Woodburn baseball team played a return engagement with the Hillsboro team on the local grounds last Sunday and won by a 3 to 2 score, evening up the defeat they suffered at the hands of this team earlier in the season.

The game proved to be a pitching duel between "Snowball" Lane and "Southpaw" Gray, and honors were about even, seven hits being gathered by each team, and the support was almost faultless on both sides.—Woodburn Independent.

FIRE CAUSES SMALL LOSS

Dallas, Or., Sept. 6.—A small fire at (Capital Journal Special Service.) the Bamdsale property on Uglow avenue Monday morning caused a small loss that was fully covered by insurance. The fire department responded promptly to the call and had the flames extinguished in short order. A defective fuse is thought to have been the cause of the blaze.

NEW STORE RESULT OF STEADY GROWTH

Kafoury Bros. Move Into Larger Quarters Second Time In Four Years.

Opening for business in June of 1915 with but a little room filled with merchandise, on Liberty street, the Kafoury Bros., dry goods store in the four years has developed into one of the big stores of the city. The growth of business N. C. Kafoury said, has made it necessary for the firm to move two times into larger quarters until it now occupies in its new location the double front store building formerly occupied by the Spencer Hardware company.

In its new location, the Kafoury store has a frontage of 40 feet with a depth of 110, with a basement for reserve stocks under the main floor space.

Besides the main floor space of 4,400 feet, balconies have been constructed on each side of the store 10x60 feet and in the rear a balcony the width of the building and 20 feet deep.

The store as it has now been remodelled and refurnished, has everything and every facility for handling dry goods that may be found in the larger city stores. This building includes special cabinets for suits, each cabinet electrically lighted and moth proof.

For the convenience of its customers, there has been installed a large rest room and within a week the drinking fountain will be placed. One of the features is in having the electric light fixtures of a dull cream color to harmonize with the enamelled work of the interior. Mr. Kafoury also announces that special fitting rooms have been provided for the corset department with expert fitters and special rooms for trying on of the garments.

The former location of the Kafoury store will be occupied by a men's furnishing and shoe store and will be managed in conjunction with the dry goods store. The store for men's wear will be

managed by Allan Kafoury recently returned from France and Theodore Condo, a brother-in-law of Mr. Kafoury. Both stores are now open for business.

Hopmen Not Alarmed Over Rains Of Past Few Days

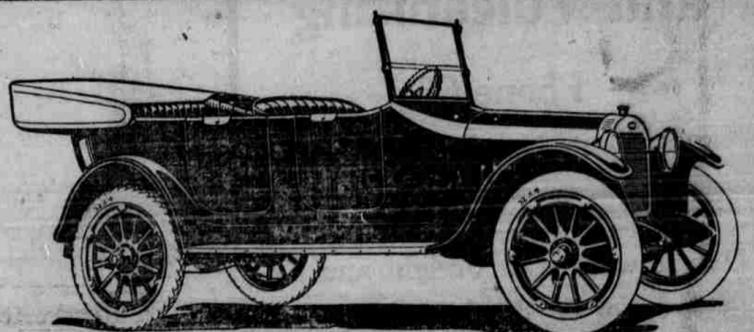

Hop interests are not especially alarmed over the rains of the past few days. In fact, by some, the rain is re-

garded as sort of a blessing if it will just stop in a day or so. In general the picking had begun rather early this year and it is felt that no damage will be done even if there is a delay of a few days.

In the Livesley hop yards, it has been usual to prepare for the customary September rains about picking time. At all of the yards, there are houses and accommodations and for the pickers that are already on the grounds, it is just a matter of waiting a few days without

any special great inconvenience. The Livesley employ from 1400 to 1500 pickers. This number is already mostly on the grounds. These yards are located seven miles north with 300 acres, four miles south of Salem with 190 acres, Orville with 50 acres and Independence with 100 acres. Other hop growers express no special fear over weather conditions, provided of course it clears up within three or four days.
